## INDUSTRY INSIGHTS

**Stimulating the Local Economy** – buying local and investing in the economic growth of our regions has been a fundamental priority for Queensland councils. In recent years, a majority of councils have modified their strategic procurement policies to incorporate a culture that supports buying locally. Learn about the successes, and how councils have overcome some of the challenges they have faced in the process.

**Asset Management Panel** – Insights from industry experts on adopting new technologies and using these to improve asset management practices.

More sector insights for local government.
